

POWERING TARGETED GREEN INCLUSIVE FINANCE

Custom Digital Token Wallets

Real-Time Fund Monitoring For Grants, Loans, or Carbon Credits

INVEST WITH TRUST

Aloi's **custom closed-loop wallets** ensures every dollar invested in communities or individuals is used for its intended purpose.

Whether you're a financial institution, NGO, government agency, or climate fund, use Alooi to build your digital ecosystem for full visibility into tracking last mile-disbursements.

<1% OF CLIMATE FINANCE

reaches people and businesses at a grassroots level. An **equitable green transition** will need an additional US\$4 billion/year to support informal sector entrepreneurs and businesses.

How can we increase the trust for investing in last mile communities?

-  **Trust**
-  **Transparency**
-  **Traceability**

USE CASES

Carbon credit disbursements: reward verified behaviour with digital incentives

Healthcare wallets: disburse medical funds/loans usable only at accredited clinics

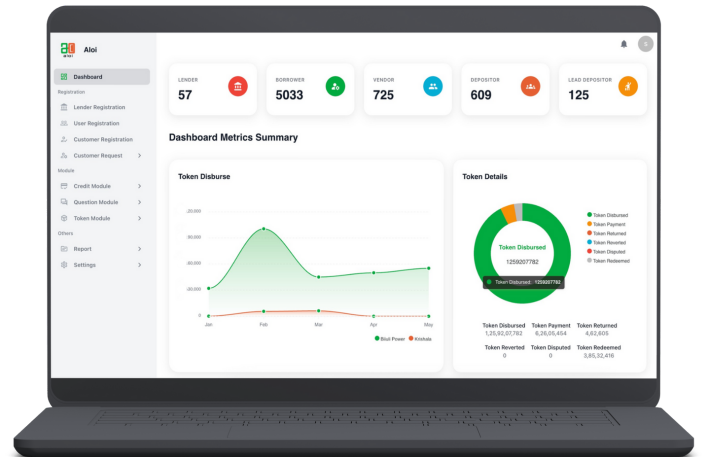

Education wallets: manage payments for school fees, uniforms, or after school tuition

Tokenized insurance: enable traceable payouts after climate or health shocks

Humanitarian relief: transparent cash disbursements for disasters

LICENSE THE TECHNOLOGY

- ✓ White-label platform
- ✓ End-to-end fund visibility
- ✓ Built for remote areas: offline SMS/app
- ✓ Localize to any language
- ✓ Built for scale: secure technology

IMPACT IN ACTION

In Nepal, Aloï is used by

28 banks and financial institutions and partners like UNDP for monitoring

- **Electric mobility:** loans for e-tuktuks and e-buses
- **Sustainable agriculture:** loans for dairy, coffee, and women farmers
- **Forestry programs:** carbon credit disbursement

INTERESTED? LET'S DESIGN FOR YOUR IMPACT GOALS

- Reduce monitoring costs
- Improve fund transparency
- Increase targeted impact
- Grow data-driven decisions

Building green inclusive finance together!
